## Patient Discharge Instructions

San Antonio Regional Hospital would like to thank you for allowing us to assist you with your healthcare needs. The following includes patient education materials and information regarding your illness/injury. Please make an appointment with your physician within two weeks and bring all of your medications and prescriptions to the appointment (unless otherwise instructed).

### **IF YOU RECEIVED SEDATION:**

- Do not drive or operate machinery for 24 hours after receiving sedation or while taking pain medication.
- Do not drink alcoholic beverages for 24 hours after receiving sedation or while taking pain medication.
- Do not make important decisions or sign legal documents for the next 24 hours after receiving sedation.

### **My Health Records**

Your San Antonio Regional Hospital **lab and radiology results** and **discharge instructions** can be viewed and downloaded on San Antonio Regional Hospital's patient portal. To access this, you need a *My Health Records* account. A registration representative may have sent you an Invitation to your personal email. Follow the instructions in the email to create your account. Or to self-enroll, go to [SARH.org](http://SARH.org), then click on the *My Health Records* button (upper right corner), and follow the prompts. If you already have an account, go to [www.SARH.org/4myhealth](http://www.SARH.org/4myhealth) to log in. Note: Laboratory results are available after 3 days and Radiology results are available after 5 days. If you have questions or need assistance with creating a *My Health Records* account, please call (909) 694-1088 or email [MyHealthRecords@sarh.org](mailto:MyHealthRecords@sarh.org).

### **Wellness Tools are Also Available at My Health Records!**

*My Health Records* has a variety of health assessment tools, health trackers, and action plans to help you monitor your health and provide educational information. Tools included are:

### Discharge Documentation

A responsible adult **MUST** drive you home on your day of discharge. Your Doctor will tell you when it is safe to resume driving. Many people are able to resume driving within 24 to 48 hours after discharge.

#### **CATHETER INSERTION SITE CARE**

- There will be a bandage (dressing) over your catheter insertion site (also called the wound site). You may take this dressing WEDNESDAY NIGHT AFTER 9:00PM, 12/29/2021. The best way to do this is when you are showering, get the tape and dressing wet and remove it.
- Gently wash the wound site at least daily with soap and water; do not rub the site. Starting in **24 hours** after procedure.
- Pat dry and cover the area with a small adhesive bandage.
- Do not take a bath, go in a hot tub, or swim in a pool or lake for one week after the procedure.
- **If you notice any oozing, bleeding or a lump growing at the wound site, immediately apply firm pressure directly to the site and call 911.**
- Contact your Doctor for any signs of infection such as fever, site redness, or increased soreness and small swelling.
- Go to the Emergency Room if you develop any of following symptoms:
  - Worsening pain to wound site
  - Lightheadedness
  - Dizziness or fainting
  - Fever or chills
  - Blood in your urine or stool
  - Pain or swelling to affected arm

#### **MEDICATIONS**

Please review your medications with your Doctor and Nurse before you go home. Make sure you understand what medications you should be taking and how often to take them. You may be given several new medication prescriptions for your heart such as Aspirin, Plavix, or Effient. Take these medications daily or as instructed. **DO NOT STOP** taking these medications until your Cardiologist tells you to do so. You may also be instructed to take Tylenol 1-2 tablets of regular strength every 6 hours as needed for pain. **START YOUR BRILLINTA WEDNESDAY MORNING AT 9:00AM, 12/29/2021**

### Discharge Documentation

If you take **Metformin** it is to be stopped for **two** days after your procedure.

#### ACTIVITY GUIDELINES

Your doctor will tell you when you can resume your usual activities. In general, you will need to take it easy for the first two days after you get home. You can expect to feel tired and weak the day after your procedure. You may take walks around your house and plan to rest during the day.

- Avoid using Procedure Arm for **2 days** then limit lifting per guidelines below.
- Avoid heavy lifting (greater than 5 pounds) Twisting at wrist, pushing or pulling heavy objects for the first **5 to 7 days** after the procedure.
- Do not participate in strenuous activities for **5 days** after the procedure. This includes most sports such as jogging, golfing, playing tennis, and bowling. **OR** As instructed by your Cardiologist
- Gradually increase your activities until you reach your normal activity level within one week after the procedure.
- Ask your Doctor when it is safe to resume sexual activity.
- Ask your Doctor for specific guidelines about returning to work.

#### FOLLOW UP

##### Call for a Follow up Appointment

Before you are discharged from the hospital, your Doctor and Nurse will tell you when you need to follow-up with your Primary Doctor, Cardiologist and any/or other HealthCare Provider. Please be sure that you keep your follow-up appointments to ensure that your health and wellness continues to improve.

**San Antonio Regional Hospital is a San Bernardino County  
Vaccination Center**

San Bernardino County has extended COVID-19 vaccinations to all people 5 years and older.

**Open to the Public for Vaccinations 7 Days a week,**

Monday-Friday 9:00AM – 8:00PM ; Weekends 9:00AM – 5:00PM

**To schedule an appointment at this location, go to**

<https://4myhealth.iqhealth.com/pages/myturnvaccinescheduling>

##### Eastvale San Antonio Medical Plaza

12442 Limonite Avenue, Eastvale, CA 91752

**Open to the Public for Vaccinations 7 Days a week,**

Monday-Friday 9:00AM – 8:00PM ; Weekends 9:00AM – 5:00PM

**To schedule an appointment at this location, go to**

<https://4myhealth.iqhealth.com/pages/myturnvaccinescheduling>

If you are 12 or older and a resident of San Bernardino County, all requests for a vaccination appointment at our hospital must be made by sending an email to [covid19vaccine@sarh.org](mailto:covid19vaccine@sarh.org)

Once you've sent the email to [covid19vaccine@sarh.org](mailto:covid19vaccine@sarh.org), you will receive an email with a link to go online to schedule an appointment. The email will include the link and a specific invite code, which must be used when scheduling. There will be instructions regarding information which must be included to register as well as instructions on what to bring the day of your appointment and where to check-in. **You will need to make individual appointments for each person.**

**You will need to bring:**

- An I.D. showing proof of residency in San Bernardino County to be vaccinated.
- You must be a resident of San Bernardino County within the above tiers to qualify for vaccination at this location.
- Unfortunately, anyone who does not bring this identification will have to be rescheduled for another day – no exceptions.

If you do not receive the email with the link & invite code right away, it is due to a delay in vaccine shipment. Please be patient and continue to check your email for a return message from [covid19vaccine@sarh.org](mailto:covid19vaccine@sarh.org) until you receive the link and invite code.

### Discharge Documentation

**Be sure to write down the date & time of your appointment as you will NOT receive a confirmation email. Finally, your second vaccine will be scheduled when you get your first shot.** You will need to keep the card they give you with this date and time. You will return to the same location for your second vaccine.

**Additional vaccination locations** and registration information for SAN BERNARDINO COUNTY can be found at <https://sbcovid19.com/vaccine>

## Only for Patients Diagnosed with Coronavirus (COVID-19)

The novel Coronavirus, known as COVID-19. It is a viral illness that can cause fever, cough and trouble breathing. Some people may have chills, muscle aches, runny nose, sneezing, sore throat, upset stomach or loose stool.

When leaving the Hospital, you will be asked to wear a mask. You should wear it until you get home.

### When do I need to call the doctor?

- Call your doctor if your breathing is getting worse e.g. harder or faster than before, or you feel like you are getting less air.
- Get medical attention right away if you have trouble breathing, chest pain or pressure that does not go away, new confusion or not able to wake up, or bluish lips or face.
- If you can, put on a facemask before leaving home or before you enter the clinic or hospital.

### Precautions at home

The virus is spread easily through tiny droplets when you cough or sneeze. You should take these steps to help prevent the disease from spreading to people in your home and community:

#### 1. Self-isolate at home

Stay in your home, except to go to the doctor, and limit contact with others:

- Do not go to work, school, or public areas, except for getting medical care.
- Avoid using public transportation such as buses, ride-sharing, or taxis.
- If you have an upcoming doctor appointment, call the office and tell them that you have COVID-19.

Separate yourself from other people and animals in your home:

- Avoid touching other people, including handshaking.
- As much as you can, stay in a specific room and away from other people in your home. You should also use a separate bathroom, if available.
- Avoid sharing personal household items. You should not share dishes, drinking glasses, cups, eating utensils, towels, toothpaste, or bedding with other people in your home. After using these items, they should be washed well with soap and water.
- Do not handle pets or other animals while sick.

#### 2. Clean and disinfect

Clean all "high-touch" surfaces every day:

- High-touch surfaces include counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tablets, and bedside tables.
- Clean any surfaces that may have blood, stool, or body fluids on them. Use a household cleaning spray or wipe, according to the instructions on the label.
- Remove and wash clothes or bedding that have blood, stool, or body fluids on them.

#### 3. Help stop the spread

**Report ID:** 127045217

**Print Date/Time:** 2/24/2023 16:08 PST

## San Antonio Regional Hospital

**Patient:** HANNA MD, ADEL SHAKER  
**MRN:** 918505 **DOB/Age/Sex:** 3/29/1946 76 years Male  
**FIN:** 5314530 **Admit/Disch:** 12/28/2021 12/28/2021  
**Patient Type:** Day Patient **Admitting:** Chan D.O.,Larry  
**Attending:** Chan D.O.,Larry

### Discharge Documentation

Clean your hands often:

- Wash your hands with soap and water for at least 20 seconds **OR** use an alcohol-based hand sanitizer that contains at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry.
- Wash your hands after blowing your nose, coughing, sneezing, going to the bathroom, and before eating or preparing food.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

Cover your mouth and nose:

- Cover your mouth and nose with a tissue when you cough or sneeze. Throw used tissues in a lined trash can and clean your hands right away.
- Wear a facemask when you are around other people (e.g. sharing a room or vehicle) or pets, and before you enter a healthcare provider's office.
- Notify your close contacts

**Your close contacts should:**

- Self-monitor for symptoms by checking their temperature twice a day and watching for fever, cough, or shortness of breath. They should contact their doctor if they develop these symptoms.
- Clean their hands often and avoid touching eyes, nose, and mouth with unwashed hands.
- Wear a mask if they have to be in the same room as you, if you are not able to wear one.

#### **When can I stop precautions at home?**

You can stop isolating yourself when the following things have happened:

You have had no fever for at least 24 hours (that is one full day of no fever without the use of medicine that reduces fevers)

**AND**

Other symptoms have improved (for example, when your cough or shortness of breath have improved)

**AND**

At least 10 days have passed since your symptoms first started.

#### **Manage your stress and anxiety**

Being ill can be stressful or cause anxiety:

- Remember that everyone reacts differently to stressful situations.
- COVID-19 might be especially stressful because it is a new disease and there is a lot of news coverage. Take breaks from watching, reading, or listening to news stories, including social media.
- People with preexisting mental conditions should continue their treatment and be aware of new or worsening symptoms.
- If you, or someone you care about, are feeling overwhelmed with emotions like sadness, depression, or anxiety, call the Substance Abuse and Mental Health Services Administration's (SAMHSA's) Disaster Distress Helpline: 1.800.985.5990 or text TalkWithUs to 66746. (TTY 1.800.846.8517)

### Discharge Documentation

When a cigarette smoker inhales, about 25% of the nicotine in the smoke reaches the brain within six seconds. A "Pack-a-day" smoker gets between 50,000 and 70,000 such nicotine "jolts" a year. Nicotine causes the heart to beat much faster. Blood pressure rises and harmful substances pour into the blood. Combined with the stress caused by carbon monoxide in cigarette smoke, more than 120,000 heart attack deaths occur yearly among U.S. smokers.

#### Second Hand Smoke

Second hand smoke is the combination of smoke from a burning cigarette and smoke exhaled by a smoker. The smoke that burns off the end of a cigarette or cigar contains more harmful substances than the smoke inhaled by the smoker. If you do not smoke, but are exposed to second-hand smoke on a regular basis, your body is absorbing nicotine and other harmful substances just as the smokers body is doing. In the U.S., 37,000 annual deaths are related to second-hand smoke.

#### Do Not Smoke!!

If you would like more information on avoiding second-hand smoke or if you would like help to quit smoking, please contact the following community resource.

#### CALIFORNIA SMOKERS HOTLINE: 1-800-NO-BUTTS

(Six languages and hearing impaired)

## Narcotics - Safe Use, Storage and Disposal

#### Safe Use of Narcotics

Follow all directions on your prescription label. Never take this medicine in larger amounts, or for longer than prescribed. Misuse of narcotics can cause addiction, overdose, or death, especially in a child or other person using the medicine without a prescription.

#### Storage of Narcotics

Remember to keep your narcotics and all other medicines out of reach of children. Never share your medicines with others, and use this medication only for the indication prescribed on the prescription label.

#### Common Side Effects of Narcotics

Common side effects include dizziness, drowsiness, nausea, or constipation. This is not a complete list of side effects and other symptoms may occur. Call your doctor for medical advice about side effects. Seek medical attention right away if you have life threatening symptoms.

#### How To Dispose Of Unused Medications

Caregivers and consumers should remove expired or unused medicines from their home as quickly as possible to help reduce the chance that others may accidentally take or intentionally misuse the unneeded medicine.

\*Call 1-800-882-9539 for locations that collect unused medications near you

#### Disposal of Medications At Home

If no take-back programs or DEA-authorized collectors are available near your area, and there are no specific disposal instructions on the label, you can follow these simple steps below to dispose of most medications in the household:

1. MIX - Mix medicines (do not crush tablets or capsules) with an unpalatable substance such as dirt, litter, or used coffee grounds
2. PLACE - Place the mixture in a container such as a sealed plastic bag
3. THROW - Throw the container in your household trash
4. SCRATCH OUT - Scratch out all personal information on the prescription label of your empty pill bottle or empty medicine packaging to make it unreadable, then dispose of the container.

*\*Persons may not dispose of illicit drugs (ex: marijuana, heroin, LSD) through these disposal methods.*

*\*Insulin syringes cannot be disposed of through one of the disposal methods stated above.*

### Discharge Documentation

## Important Information To Know About Strokes

### What is a Stroke?

A stroke occurs when a blood vessel that carries oxygen and nutrients to the brain is either blocked or bursts. When that happens, part of the brain cannot get the blood and oxygen it needs. Stroke is the No. 4 cause of death in the United States, behind diseases of the heart and cancer and is the leading cause of disability.

### WARNING SIGNS OF STROKE

Stroke is a medical emergency. Know these warning signs and teach them to others. Every minute counts.

**BE FAST** and check for these signs:

<b>BALANCE</b>	Dizziness, sudden trouble walking, or loss of balance?
<b>EYES</b>	Trouble seeing or a sudden change in vision?
<b>FACE</b>	Facial droop; uneven smile?
<b>ARM</b>	Arm numbness; arm weakness especially on one side?
<b>SPEECH</b>	Slurred speech; difficulty speaking or understanding?
<b>TIME</b>	Timing is critical. <b>Call 9-1-1.</b> Have ambulance go to the nearest stroke center immediately.

### Risk Factors For Stroke

Factors that cannot be changed: age, heredity (family history) and race, gender, prior stroke, TIA or heart attack. Factors that can be changed, treated or controlled: High blood pressure, high cholesterol, diabetes mellitus, cigarette smoking, carotid or other artery disease, atrial fibrillation, other heart disease, poor diet, physical inactivity, obesity, sickle cell disease, illegal drug use.

### Discharge From The Hospital

If you have had a stroke it is important that you take all medications as directed and receive continued medical care with your primary care physician or consulting physician following your discharge.

## Important Information About Chest Pain & Acute Coronary Syndrome

**What is Acute Coronary Syndrome (ACS)?** Acute Coronary Syndrome is an urgent problem in which the blood supply to the heart muscle is suddenly blocked. Well-known conditions that are acute coronary syndromes are heart attack and unstable angina. Over 800,000 people die in the US every year from a heart attack and on average 50% of these patients displayed, but ignored, the warning signs.

### Signs and Symptoms of ACS

#### Most common presentations:

Chest pain or discomfort, which may involve pressure, tightness, aching, burning, or fullness. Pain or discomfort in one or both arms, the jaw, neck, back, or stomach, shortness of breath.

#### Less common presentations:

Feeling dizzy or lightheaded, nausea, sweating, unexplained excessive fatigue, unexplained feeling of anxiety.

Report ID: 127045217

## San Antonio Regional Hospital

**Patient:** HANNA MD, ADEL SHAKER  
**MRN:** 918505 **DOB/Age/Sex:** 3/29/1946 76 years Male  
**FIN:** 5314530 **Admit/Disch:** 12/28/2021 12/28/2021  
**Patient Type:** Day Patient **Admitting:** Chan D.O.,Larry  
**Attending:** Chan D.O.,Larry

### Discharge Documentation

#### Atypical symptoms include:

Epigastric pain, indigestion, stabbing pain with coughing and breathing, and increasing difficulty breathing.

#### Risk Factors

- Family history of chest pain, heart disease, or stroke.
- Smoking.
- High blood pressure.
- High blood cholesterol.
- Diabetes, history of gestational diabetes.
- Physical inactivity, being overweight or obese.
- For women: taking birth control pills, history of pre-eclampsia, or having a low birth weight baby.

**SEEK IMMEDIATE MEDICAL CARE IF:** You are experiencing any of the ACS symptoms, or you have severe chest pain, especially if the pain is crushing or pressure-like and spreads to arms, back, neck or jaw.

**THIS IS AN EMERGENCY. Call 9-1-1 and DO NOT drive yourself to the hospital.**

## Congestive Heart Failure (CHF) Discharge Instructions

If you have Congestive Heart Failure (CHF) or have ever had CHF, these are guidelines that we recommend for better health

#### CALL YOUR DOCTOR RIGHT AWAY IF THE FOLLOWING OCCURS:

- More Shortness of Breath than usual, especially when active or when lying flat
- Weight gain of 2 - 3+ pounds overnight or 4 pounds or more in a week
- Dizziness or fainting episodes
- Extreme tiredness
- Swollen ankles or feet
- Lack of appetite, abdominal bloating or pain, nausea or vomiting
- Constant cough
- Chest pain
- Skipped beats or very slow heart rate (50 beats per minute or less)

#### Activity and Rest

Plan your day to include balanced periods of rest and activity. Put your feet up to reduce ankle swelling. Avoid extreme temperatures.

#### Medications

Know the purpose and side effects of your medications.

Report any side effects without delay to your doctor.

Your doctor will prescribe medications to improve the way your heart pumps and rids your body of extra water.

Take medication as directed. Never skip a dose or discontinue a medication without letting your doctor know.

Know your medication names, dosage and schedule. Get a refill before you run out.

If you have questions regarding dosages of your medications, contact your doctor.

Always keep an Up - To - Date List of the medications you are taking with you.

#### Diet

**The blanks below with an asterisk (\*) will only be completed by your nurse or physician if you actually have a diagnosis of CHF:**

Your Doctor has prescribed \* Diet.

Sodium \* milligrams day.

Report ID: 127045217

Print Date/Time: 2/24/2023 16:08 PST

**San Antonio Regional Hospital**

**Patient:** HANNA MD, ADEL SHAKER  
**MRN:** 918505 **DOB/Age/Sex:** 3/29/1946 76 years Male  
**FIN:** 5314530 **Admit/Disch:** 12/28/2021 12/28/2021  
**Patient Type:** Day Patient **Admitting:** Chan D.O.,Larry  
**Attending:** Chan D.O.,Larry

**Discharge Documentation**

Do not add extra salt to your diet. Follow a diet low in cholesterol and fat, particularly saturated fat.  
Ask your doctor if limiting your fluids is necessary.  
Your doctor has limited your fluids to \* ounces / 24 hours.  
Ask your doctor if limiting your fluids is necessary.  
Rest 1 hour after meals before doing any activity.  
Limit foods that have caffeine (e.g. coffee, tea, cola and chocolate) to 1-2 cups per day because of their stimulating effects.  
Check with your Doctor about drinking alcohol. If OK, limit to 2 ounces per day.

**Weigh Yourself Daily**

Weigh yourself daily in the morning and record your weight. Report any sudden weight gain of 2-3 pounds overnight or 4 pounds or more in one week to your doctor.  
Your weight when discharged was \* pounds.

**Exercise**

Check with your Doctor before starting any exercise program. Exercise can increase muscle strength, flexibility and improve your ability to do other things. Avoid pushing, pulling, or raising heavy objects above the shoulder.  
Walking is one exercise that may be recommended. Start with a 3-5 minute warm-up of light, slow stretching. Walk at a comfortable pace, making sure you can easily carry on a conversation while exercising. Slowly increasing the distance is okay as strength improves. End you walking sessions with a cooling down period by gradually slowing down.

1. Your doctors have recommended the operation or procedure listed on the signature page (page 3).

Upon your authorization and consent, this operation or procedure, together with any different or further procedures which, in the opinion of the doctor(s) performing the procedure, may be indicated due to any emergency, will be performed on you. The operations or procedures will be performed by the doctor named below (or in the event the doctor is unable to perform or complete the procedure, a qualified substitute doctor), together with associates and assistants, including anesthesiologists, pathologists, and radiologists from the medical staff of San Antonio Regional Hospital to whom the doctor(s) performing the procedure may assign designated responsibilities. The hospital maintains personnel and facilities to assist your doctors in their performance of various surgical operations and other special diagnostic or therapeutic procedures. However, the persons in attendance for the purpose of performing specialized medical services such as anesthesia, radiology, or pathology are not employees or agents of the hospital or of doctor(s) performing the procedure. They are independent medical practitioners. **INITIALS:** AS

2. Name of the practitioner (s) who is/are performing the procedure or administering the medical treatment: Larry Chan MD.

(First and Last Name(s))

Operations and procedures carry the risk of unsuccessful results, complications, injury, or even death, from both known and unforeseen causes, and no warranty or guarantee is made as to result or cure. You have the right to be informed of:

- The nature of the operation or procedure, including other care, treatment or medications;
- Potential benefits, risks or side effects of the operation or procedure, including potential problems that might occur during recuperation;
- The likelihood of achieving treatment goals;
- Reasonable alternatives and the relevant risks, benefits and side effects related to such alternatives, including the possible results of not receiving care or treatment; and
- Any independent medical research or significant economic interests your doctor may have related to the performance of the proposed operation or procedure.

**CONSENT TO SURGERY OR  
SPECIAL PROCEDURE**

Except in cases of emergency, operations or procedures are not performed until you have had the opportunity to receive this information and have given your consent. You have the right to give or refuse consent to any proposed operation or procedure at any time prior to its performance.

- If your doctor determines that there is a reasonable possibility that you may need a blood transfusion as a result of the surgery or procedure to which you are consenting, your doctor will inform you of this and will provide you with information concerning the benefits and risks of the various options for blood transfusion, including predonation by yourself or others. You also have the right to have adequate time before your procedure to arrange for predonation, but you can waive this right if you do not wish to wait.

Transfusion of blood or blood products involves certain risks, including the transmission of disease such as hepatitis or Human Immunodeficiency Virus (HIV), and you have a right to consent or refuse consent to any transfusion. You should discuss any questions that you may have about transfusions with your doctor.

- By your signature below, you authorize the pathologist to use his or her discretion in disposition or use of any member, organ or tissue removed from your person during the operation or procedure set forth above, subject to the following conditions (if any):

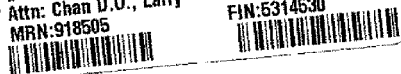

- During this procedure an authorized member of the medical staff or any representative thereof, may photograph and/or video you or any part of your body for purposes directly related to the medical care rendered. INITIALS: AS
- During this procedure a product representative may be present. The product representative will not assist in the surgery/procedure. INITIALS: AS
- If applicable, your initials here indicate that you have received "A Women's Guide to Breast Cancer Diagnosis and Treatment.": INITIALS: AS
- In accordance with Hospital Policy, any patient on a Do Not Resuscitate Status will have this status suspended during this surgical procedure. INITIALS: AS

HANNA MD, ADEL SHAKER

DOB: 3/29/1946

Gender: Male

MRN # 918505

PNO # 5314530

**CONSENT TO MEDICAL AND SURGICAL PROCEDURES**

I consent to the procedures that may be performed during this hospitalization or while I am an outpatient. These may include, but are not limited to, emergency treatment or services, laboratory procedures, X-ray examinations, medical or surgical treatment or procedures, telehealth services, anesthesia, or hospital services provided to me under the general and special instructions of my physician or surgeon. I understand that the practice of medicine and surgery is not an exact science and that diagnosis and treatment may involve risks of injury or even death. I acknowledge that no guarantees have been made to me regarding the result of examination or treatment in this hospital.

**NURSING CARE**

This hospital provides only general nursing care and care ordered by the physician(s). If I want a private duty nurse, I agree to make such arrangements. The hospital is not responsible for failure to provide a private duty nurse and is hereby released from any and all liability arising from the fact that the hospital does not provide this additional care.

**EDUCATIONAL CONSENT**

The hospital is, in part, an educational facility participating in the training of physicians, medical students, student nurses, and other health care personnel. I agree that they may participate in my care to the extent deemed appropriate by the medical staff or hospital personnel, and I consent to the demonstration, observation and admission of treatment or procedures by such persons under the supervisor of the members of the medical staff or hospital personnel.

**LEGAL RELATIONSHIP BETWEEN HOSPITAL AND PHYSICIANS**

ALL PHYSICIANS AND SURGEONS PROVIDING SERVICES TO ME, INCLUDING THE RADIOLOGISTS, PATHOLOGISTS, EMERGENCY PHYSICIANS, ANESTHESIOLOGISTS, NURSE PRACTITIONERS, PHYSICIAN'S ASSISTANTS, CONSULTING PHYSICIANS AND OTHERS, ARE NOT EMPLOYEES, REPRESENTATIVES OR AGENTS OF THE HOSPITAL. They have been granted the privilege of using the hospital for the care and treatment of their patients, but they are not employees, representatives or agents of the hospital. They are independent practitioners and WILL BILL SEPARATELY. I understand that I am under the care and supervision of my attending physician. The hospital and its nursing staff are responsible for carrying out my physician's instructions. My physician or surgeon is responsible for obtaining my informed consent, when required, to medical or surgical treatment, special diagnostic or therapeutic procedures, or hospital services provided to me under my physician's general and special instructions.

Initials: \_\_\_\_\_

**MATERNITY PATIENTS**

If I deliver an infant(s) while a patient of this hospital, I agree that these same Conditions of Admission apply to the infant(s).

Initials: \_\_\_\_\_

**PERSONAL BELONGINGS**

As a patient, I am encouraged to leave personal items at home. The hospital maintains a fireproof safe for the safekeeping of money and valuables. The hospital is not liable for the loss or damage to any money, jewelry, documents, eyeglasses, dentures, hearing aids, cell phones, laptops, or other personal electronic devices, or other articles that are not placed in the safe. Hospital liability for loss of any personal property deposited with the hospital for safekeeping is limited by law to five hundred dollars (\$500) unless I receive a written receipt for a greater amount from the hospital.

Initials: \_\_\_\_\_

80000002 #4908 (Rev. 05/19)

\* Auth (Verified) \*

**FINANCIAL AGREEMENT**

I agree to promptly pay all hospital bills in accordance with the charges listed in the hospital's charge description master and, if applicable, the hospital's charity care and discount payment policies and state and federal law. I understand that I may review the hospital's charge description master before (or after) I receive services from the hospital. I understand that all physicians and surgeons, including the radiologist, pathologist, emergency physician, anesthesiologist, and others, will bill separately for their services. Payment of estimated hospital liability may be required for non-emergent services. I have received information on the hospital's financial assistance policy and I understand I may request further assistance to determine if I may qualify. I authorize the hospital, collection agency or other entity contracted with the hospital, to verify employment and to obtain credit reports about me/legal representative from national credit bureaus in connection with payment of my account, past or present. The patient/legal representative will comply with all authorization and insurance certification requirements. If any account is referred to an attorney or collection agency for collection, I will pay actual attorneys' fees and collection expenses. All delinquent accounts shall bear interest at the legal rate, unless prohibited by law.

I/legal representative agree, by providing my phone number(s) including a landline and/or a wireless phone number, consent to receive calls and/or text messages including autodialed calls and artificial or prerecorded messages from the hospital, physicians, agents and independent contractors (including service agencies and collection agencies) regarding hospital/medical services and any related financial obligations. I acknowledge that text messages may be susceptible to certain privacy and security risks, such as being viewed by others with access to the phone or device on which the text is received or stored. This consent applies to all services and billing associated with the patient account(s).

Initials: AA

**ASSIGNMENT OF ALL RIGHTS AND BENEFITS**

I irrevocably assign and transfer to the hospital all rights, benefits, and any other interests in connection with any insurance plan, health benefit plan, or other source of payment for my care. This assignment shall include assigning and authorization of direct payment to the hospital of all insurance and health plan benefits payable for this hospitalization or for these outpatient services. I agree that the insurer or plan's payment to the hospital pursuant to this authorization shall discharge its obligations to the extent of such payment. I understand that I am financially responsible for charges not paid according to the assignment, to the extent permitted by state and federal law. I agree to cooperate with, and take all steps reasonably requested by, this hospital to perfect, confirm, or validate this assignment.

**HEALTH PLAN CONTRACTS**

This hospital maintains a list of health plans with which it contracts. A list of such plans is available upon request from the patient financial services office. All physicians and surgeons, including the radiologist, pathologist, emergency physician, anesthesiologist, and others, will bill separately for their services. It is my responsibility to determine if the hospital or the physicians providing services to me contract with my health plan.

**RELEASE OF INFORMATION**

The hospital may use and disclose patient identifiable health information for purposes of treatment, payment and health care operations and as otherwise required or permitted by law and hospital policy. For example, the hospital may release patient information from records to any person or company which is or may be responsible to pay for the hospital's services, including Medicare, Medi-Cal, insurance companies, health care plans and/or workers' compensation carriers. In addition, State law requires the hospital to report certain cases of infectious disease and cancer to governmental health agencies. For all other purposes, the patient's written authorization permitting release of identifiable health information to others will be obtained. Please see the hospital's Notice of Privacy Practices for details regarding your rights concerning the use and disclosure of patient identifiable health information.

Initials: AA

**NOTICE OF PRIVACY PRACTICES AND PATIENT RIGHTS DOCUMENT**

My initial acknowledges my receipt of the Notice of Privacy Practices, and Patient Rights Document.

Initials: AA

**CONSENT TO PHOTOGRAPH**

I consent to the taking of photographs, videotapes, digital or other images of my medical or surgical condition or treatment, and the use of the images, for purposes of my diagnosis or treatment or for the hospital's operations, including peer review and education or training programs conducted by the hospital.

80000002 #4908 (Rev. 05/19)

## CONDITIONS OF SERVICES (OUTPATIENT)

### CONSENT TO MEDICAL AND SURGICAL PROCEDURES

The person who signs below as the patient, or the representative on behalf of the patient, consents to be cared for as an outpatient at San Antonio Regional Hospital. This outpatient care may include, but is not limited to: laboratory procedures, x-ray examination including use of contrast injections, medical or surgical treatment or procedures, telehealth services, local anesthesia, and services provided to the patient under the general and special instructions of the patient's physician or surgeon. I understand that the practice of medicine and surgery is not an exact science and that diagnosis and treatment may involve risks of injury or even death. I acknowledge that no guarantees have been made to me regarding the result of examination or treatment in this hospital. This outpatient condition of services and consent will remain in effect for up to twelve (12) months from date of signature and will apply to all outpatient services provided at San Antonio Regional Hospital during this period of time.

### NURSING CARE

This hospital provides only general nursing care and care ordered by the physician(s). If I want a private duty nurse, I agree to make such arrangements. The hospital is not responsible for failure to provide a private duty nurse and is hereby released from any and all liability arising from the fact that the hospital does not provide this additional care.

### EDUCATIONAL CONSENT

The hospital is, in part, an educational facility participating in the training of physicians, medical students, student nurses, and other health care personnel. I agree that they may participate in my care to the extent deemed appropriate by the medical staff or hospital personnel, and I consent to the demonstration, observation and admission of treatment or procedures by such persons under the supervisor of the members of the medical staff or hospital personnel.

## CASE SYNOPSIS

Name: HANNA, ADEL SHAK

Date: 12/28/2021

MRN: 0918505

Prac: {C}LEFT HEART CATH/CORONARY ANGIOW/OLVGRAM

### Pre Procedure Notes

12/28/2021 1:55:03 PM Patient arrived to procedure lab with ACLS RN/RT via gurney/bed from: ACU. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:04 PM Preprocedural verification performed, H&P present, informed consent completed with correct patient and physician in chart. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Hemodynamics will remain stable. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Cardiac rhythm will remain stable. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Comfort level will be maintained. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Respiratory function will remain adequate. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Patient/Family verbalizes understanding of procedure. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Procedure tolerated without complications. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:05 PM Plan of Care: Recovers from procedure without complications. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:07 PM Pre-Op check list performed and documented in ICIS. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:08 PM ID Band on patient, ID and account number verified. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:08 PM Informed Consent and Physician verified. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:10 PM H&P on chart. Chest X-Ray completed. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:25 PM NPO Status: NPO since 12/27/21 @ 1200 (Entered By: Luber, Michael RN)  
12/28/2021 1:55:29 PM Instructions given. Patient/Family/Significant Other verbalizes understanding. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:37 PM Family not available. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:39 PM Previous reaction to contrast media? No (Entered By: Luber, Michael RN)  
12/28/2021 1:55:41 PM Is patient taking Coumadin? No (Entered By: Luber, Michael RN)  
12/28/2021 1:55:43 PM Is patient on Heparin or Lovenox? No (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Aldrete Color: Pink (2) (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Aldrete Consciousness: Fully awake (2) (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Aldrete Circulation: BP +/- 20 mmHg of pre-anesthetic level (2) (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Aldrete Respirations: Able to deep breathe and cough (2) (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Aldrete Activity: Able to move 4 extremities (2) (Entered By: Luber, Michael RN)  
12/28/2021 1:55:46 PM Total Aldrete Score: 10 (Entered By: Luber, Michael RN)  
12/28/2021 1:55:56 PM Patient Comfort Level: No chest pain, shortness of breath or other complaints. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:58 PM Pre-assessment of Skin: warm and dry. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:58 PM Pre-assessment of Color: normal. (Entered By: Luber, Michael RN)  
12/28/2021 1:55:58 PM Pre-assessment of Edema: none. (Entered By: Luber, Michael RN)  
12/28/2021 2:03:10 PM Pre ECG Rhythm: Sinus Rhythm (Entered By: Luber, Michael RN)  
12/28/2021 2:03:15 PM Pre Distal Pulses: Right DP & PT 2+ (Normal) (Entered By: Luber, Michael RN)  
12/28/2021 2:03:37 PM IV Site: Patent on arrival in LEFT Upper arm, 20 gauge - 0.9% NaCl @ 100 ml/hr (Entered By: Luber, Michael RN)  
12/28/2021 2:03:39 PM Procedural site shaved with clippers. (Entered By: Luber, Michael RN)

### Diagnostic Procedure Notes

12/28/2021 2:03:52 PM Patient prepped with Chloraprep and draped in the usual sterile manner, site: RIGHT radial and groin regions. (Entered By: Luber, Michael RN)

12/28/2021 2:03:54 PM Physician arrived to the lab. (Entered By: Luber, Michael RN)

12/28/2021 2:04:05 PM Physician notified of max contrast limit of 333 ml's (Entered By: Luber, Michael RN)

12/28/2021 2:04:08 PM Oxygen applied @ 2 L/min via nasal cannula. (Entered By: Luber, Michael RN)

12/28/2021 2:09:46 PM Modified Allen test with pulse oximetry performed; ulnar arterial waveform recorded. (Entered By: Luber, Michael RN)

12/28/2021 2:09:47 PM TIME OUT TAKEN Correct Patient and Account Number. (Entered By: Luber, Michael RN)

12/28/2021 2:09:47 PM TIME OUT TAKEN Correct Consent and Physician. (Entered By: Luber, Michael RN)

12/28/2021 2:09:47 PM TIME OUT TAKEN Correct Site (if appropriate). (Entered By: Luber, Michael RN)

12/28/2021 2:09:47 PM TIME OUT TAKEN Safety Precautions Based on Patient History or Medication Use. (Entered By: Luber, Michael RN)

12/28/2021 2:20:09 PM Local anesthetic to RIGHT radial region with Lidocaine 1% (Entered By: Luber, Michael RN)

12/28/2021 2:21:32 PM Ultrasound guided vascular access obtained to the RIGHT radial artery. (Entered By: Luber, Michael RN)

12/28/2021 2:21:37 PM Sheath inserted over the wire into the RIGHT radial artery. (Entered By: Luber, Michael RN)

12/28/2021 2:23:34 PM {Diagnostic Wire} Merit Medical J Tip Fixed Core (035) 150cm - Qty: 1 Part #: 808 (Entered By: Luber, Michael RN)

12/28/2021 2:23:38 PM Catheter inserted and advanced over the wire: 5 FR FR4 (Entered By: Luber, Michael RN)

12/28/2021 2:24:21 PM Wire exchanged. Angled Glide - 180cm (Entered By: Luber, Michael RN)

12/28/2021 2:27:46 PM RCA angiography performed in multiple views. (Entered By: Luber, Michael RN)

12/28/2021 2:31:38 PM New diagnostic wire inserted: Exchange J-tip Wire - 260cm (Entered By: Luber, Michael RN)

12/28/2021 2:31:45 PM Catheter exchanged over the wire: 5 FR FL3.5 (Entered By: Luber, Michael RN)

12/28/2021 2:31:47 PM LCA angiography performed in multiple views. (Entered By: Luber, Michael RN)

12/28/2021 2:33:53 PM Catheter removed over the wire. (Entered By: Luber, Michael RN)

### Interventional Procedure Notes

12/28/2021 2:33:58 PM {Miscellaneous} Merit Medical Inflation Device Kit - Qty: 1 Part #: 919 (Entered By: Luber, Michael RN)

12/28/2021 2:36:07 PM Guide catheter exchanged over the wire: 6 FR EBU3.5 (Entered By: Luber, Michael RN)

12/28/2021 2:37:23 PM PCI wire inserted and advanced under fluoro: BMW 190cm (Entered By: Luber, Michael RN)

12/28/2021 2:40:38 PM Drug Eluting Stent inserted over the wire. Synergy 3.0 mm X 28 mm (Entered By: Luber, Michael RN)

12/28/2021 2:40:41 PM LCA angiogram performed in single and/or multiple view(s). (Entered By: Luber, Michael RN)

12/28/2021 2:41:20 PM Stent deployed, site: Mid LAD @ 13 atm for 30 secs (Entered By: Luber, Michael RN)

12/28/2021 2:41:45 PM Stent balloon reinflated, site: Mid LAD @ 15 atm for 20 secs (Entered By: Luber, Michael RN)

12/28/2021 2:44:10 PM Stent delivery device removed over the wire. (Entered By: Luber, Michael RN)

12/28/2021 2:44:44 PM Drug Eluting Stent inserted over the wire. Synergy 2.75 mm X 24 mm (Entered By: Luber, Michael RN)

12/28/2021 2:46:07 PM LCA angiogram performed in single and/or multiple view(s). (Entered By: Luber, Michael RN)

12/28/2021 2:46:43 PM Stent deployed, site: Mid LAD @ 13 atm for 30 secs (Entered By: Luber, Michael RN)

12/28/2021 2:47:03 PM Stent balloon reinflated, site: Mid LAD @ 15 atm for 20 secs (Entered By: Luber, Michael RN)

12/28/2021 2:48:31 PM Stent delivery device removed over the wire. (Entered By: Luber, Michael RN)

12/28/2021 2:50:30 PM PCI wire(s) removed. (Entered By: Luber, Michael RN)

12/28/2021 2:50:44 PM LCA angiogram performed in single and/or multiple view(s). (Entered By: Luber, Michael RN)

12/28/2021 2:53:10 PM Guide Catheter removed over the wire. (Entered By: Luber, Michael RN)

12/28/2021 2:55:59 PM Guide catheter inserted and advanced over the wire: 6 FR 3DRC (Entered By: Luber, Michael RN)

12/28/2021 2:57:01 PM PCI wire inserted and advanced under fluoro: BMW 190cm (Entered By: Luber, Michael RN)

12/28/2021 3:00:09 PM Drug Eluting Stent inserted over the wire. Synergy 3.0 mm X 12 mm (Entered By: Luber, Michael RN)

12/28/2021 3:01:55 PM RCA angiogram performed in single and/or multiple view(s). (Entered By: Luber, Michael RN)

12/28/2021 3:02:04 PM Stent deployed, site: Mid RCA @ 13 atm for 30 secs (Entered By: Luber, Michael RN)

12/28/2021 3:02:46 PM Stent balloon reinflated, site: Mid RCA @ 15 atm for 20 secs (Entered By: Luber, Michael RN)

12/28/2021 3:03:19 PM Stent delivery device removed over the wire. (Entered By: Luber, Michael RN)

12/28/2021 3:03:22 PM PCI wire retracted into the guide catheter for cines. (Entered By: Luber, Michael RN)

12/28/2021 3:03:24 PM RCA angiogram performed in single and/or multiple view(s). (Entered By: Luber, Michael RN)

12/28/2021 3:03:30 PM PCI wire(s) removed. (Entered By: Luber, Michael RN)

12/28/2021 3:03:32 PM Guide Catheter removed over the wire. (Entered By: Luber, Michael RN)

### Post Procedure Notes

12/28/2021 3:03:47 PM Procedure complete. (Entered By: Luber, Michael RN)  
12/28/2021 3:04:26 PM Total Fluoro Time: 11.4 mins (Entered By: Luber, Michael RN)  
12/28/2021 3:04:31 PM Total Fluoro (mGy) dose: 593 (Entered By: Luber, Michael RN)  
12/28/2021 3:04:38 PM Total Contrast 1: Omnipaque {Contrast} GE Healthcare Omnipaque\_350mg/ml - Qty: 90 Each Part #: 4287 (Entered By: Luber, Michael RN)  
12/28/2021 3:05:33 PM Arterial sheath(s) - removed with a TR Band with 10cc in band. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:06 PM Site status: No bleeding/hematoma noted. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:08 PM Post ECG Rhythm: Unchanged from pre-assessment. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:10 PM Post Distal Pulses: Unchanged from pre-assessment. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Aldrete Color: Pink (2) (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Aldrete Consciousness: Arousable (1) (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Aldrete Circulation: BP +/- 20 mmHg of pre-anesthetic level (2) (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Aldrete Respirations: Able to deep breathe and cough (2) (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Aldrete Activity: Able to move 4 extremities (2) (Entered By: Luber, Michael RN)  
12/28/2021 3:09:16 PM Total Aldrete Score: 9 (Entered By: Luber, Michael RN)  
12/28/2021 3:09:17 PM Patient comfort level: No chest pain, shortness of breath or other complaints. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:19 PM IV Site: Unchanged from pre assessment. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:20 PM Post instructions given. Patient / Family / Significant Other verbalizes understanding. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:22 PM Physician discussing results and recommendations with patient. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:25 PM Stent card/information placed inside chart. (Entered By: Luber, Michael RN)  
12/28/2021 3:09:27 PM Oral antiplatelet coupon placed inside chart. (Entered By: Luber, Michael RN)  
12/28/2021 3:11:50 PM Report called to Sheila RN (Entered By: Luber, Michael RN)  
12/28/2021 3:18:00 PM Patient transferred via gurney/bed with ACLS RN/RT to ACU. (Entered By: Luber, Michael RN)

San Antonio Regional Hospital

Patient: HANNA MD, ADEL SHAKER
MRN: 918505
FIN: 5314530
Patient Type: Day Patient
Attending: Chan D.O.,Larry
DOB/Age/Sex: 3/29/1946 76 years Male
Admit/Disch: 12/28/2021 12/28/2021
Admitting: Chan D.O.,Larry

Cardiac Catheterization

Document Name: Cardiac Cath Procedures
Result Status: Modified
Performed By: Chan D.O.,Larry (12/28/2021 15:32 PST); Chan D.O.,Larry (12/28/2021 15:30 PST)
Authenticated By: Chan D.O.,Larry (12/28/2021 15:32 PST); Chan D.O.,Larry (12/28/2021 15:30 PST)

Addendum by Chan D.O., Larry on December 28, 2021 15:32:17 PST
Modifier 59 for second stent required in the LAD after the first stent was implanted.

DATE OF PROCEDURE: 12/28/21

PRIMARY OPERATOR: Larry Chan.

PROCEDURES PERFORMED:

- 1. Left heart catheterization.
2. Selective left coronary angiography.
3. Selective right coronary angiography.
4. Successful 3.0 x 28 mm Boston Scientific Synergy Drug Eluting Stent to proximal to mid LAD.
5. Successful 2.75 x 24 mm Boston Scientific Synergy Drug Eluting Stent to mid LAD.
6. Successful 3.0 x 12 mm Boston Scientific Synergy Drug Eluting Stent to mid to distal RCA.
7. Successful TR band placement over right radial artery.
8. Interpretation of data.
9. Ultrasound guidance of right radial access.
10. Conscious sedation time: 50 minutes.
11. Modifier 22 for multiple vessel CAD and very difficult engagement and delivery of RCA stent with very little support from guide.

INDICATION FOR PROCEDURE: The patient is a 75-year-old gentleman who presented with persistent chest discomfort.

PROCEDURE NOTE: The patient was brought to the cardiac laboratory under usual fashion manner. The risks, benefits, and alternatives were discussed with the patient who agreed to proceed with left heart cath. Timeout was completed prior to initiation of the procedure. 3 mL of 1% Xylocaine was infused in the right wrist for local anesthetic. Then access was obtained in the right radial artery with ultrasound guidance without any complications. Then, a 6-French slender short sheath was inserted without any complications. A 5-French JR4 was then inserted in the left ventricle. The left ventricular pressure was obtained and then pullback across the aortic valve was also recorded. Then the catheter was manipulated to the right coronary artery where selective right coronary angiography was then performed and it was exchanged out for a 5-French JL 3.5 catheter which was used to engage the left main, where selective left coronary angiography was then performed.

After detail review of the diagnostic images, it was felt warranted to intervene on the

**Patient:** HANNA MD, ADEL SHAKER

**MRN:** 918505

**FIN:** 5314530

**Patient Type:** Day Patient

**Attending:** Chan D.O.,Larry

**DOB/Age/Sex:** 3/29/1946 76 years Male

**Admit/Disch:** 12/28/2021 12/28/2021

**Admitting:** Chan D.O.,Larry

### Cardiac Catheterization

mid LAD and mid to distal RCA as this was felt to be the culprit lesion. IV heparin was given for anticoagulation. The 5-French JL 3.5 was exchanged out for an 6-French EBU 3.5 guide that was used to engage in the left main without any issues. Then a BMW wire was inserted and manipulated and parked in distal LAD. Then a 3.0 x 28 mm Boston Scientific Synergy drug eluting stent was positioned with multiple views and angulations and deployed at 13 atmospheres for 30 seconds. Then using the stent delivery balloon, it was post-dilated at 15 atmospheres for 20 seconds. Post injection revealed 70% residual stenosis in mid to distal LAD with TIMI III flow down distal portion of the vessel. Then a 2.75 x 24 mm Boston Scientific Synergy drug eluting stent was positioned with multiple views and angulations and deployed at 13 atmospheres for 30 seconds. Then using the stent delivery balloon, it was post-dilated at 15 atmospheres for 20 seconds. Post injection revealed 30-40% residual mid stenosis in mid LAD in the unstented region with TIMI III flow down distal portion of the vessel.

The guide was exchanged out for an 6-French JR-4 guide that was used to engage in the RCA without any issues. Then a BMW wire was inserted and manipulated and parked in distal RCA. Then a 3.0 x 12 mm Boston Scientific Synergy drug eluting stent was positioned with multiple views and angulations and deployed at 13 atmospheres for 30 seconds. Then using the stent delivery balloon, it was post-dilated at 15 atmospheres for 20 seconds. Post injection revealed 70% residual stenosis in mid to distal LAD with TIMI III flow down distal portion of the vessel.

Then all wires were removed and post injection revealed no signs of complications including dissection, perforations or another issues.

Then all wires and catheters were removed and then a TR band was deployed over the right radial artery without any complications. Hemostasis was achieved in the cath lab. The patient tolerated the procedure very well and was hemodynamically stable throughout the course of the procedure. The patient will be transferred to ACU for further monitoring and discharged home today.

#### FINDINGS:

1. The left ventricular end diastolic pressure is noted to be at 15 mmHg. There is no significant gradient upon pullback across the aortic valve.
2. The left main is a large caliber vessel which bifurcates into left anterior descending, left circumflex vessels, is angiographically free of significant disease.
3. Left anterior descending artery is a large caliber vessel with 2 moderate caliber diagonal branches. Just after a large septal perforator, there is a 70% tandem lesions in the proximal to mid LAD. There is a 70-80% mid LAD lesion seen.
4. The left circumflex is a large caliber vessel with 2 moderate caliber OM branches, which is angiographically free of significant disease.
5. Right coronary artery is a large caliber vessel which bifurcates into the posterior LV branch and posterior descending artery. It is a right dominant system. There is a 70% mid to distal RCA lesion seen.

COMPLICATIONS IN LAB: None.

TOTAL FLUOROSCOPY TIME: 11.4 minutes.

TOTAL CONTRAST USED: 90 mL.

ASSESSMENT:

**Report ID:** 127045217

**Print Date/Time:** 2/24/2023 16:08 PST

San Antonio Regional Hospital

Patient: HANNA MD, ADEL SHAKER MRN: 918505 FIN: 5314530
Age: 75 years Sex: Male DOB: 03/29/1946
Associated Diagnoses: None
Author: Chan D.O., Larry

Procedure

CCL Interventional/Diagnostic Procedure Note - PRELIM
Procedure Performed: Percutaneous Coronary Intervention.
Performing Provider's Name: Chan D.O., Larry.
Procedure Indication: Abnormal Stress Test.
Procedure Description: See Dictated Report.
Procedure Complications: No.
Access Site: Right, Radial.
Closure Device: T-band.

Post-Procedure Sedation Evaluation - Only needs to be completed if not documented elsewhere

Post-Procedure Date & Time: 12/28/2021 15:05:00.
Patient participates in evaluation - answers appropriately, performs simple tasks: Yes.
Level of Consciousness: Awake/Alert.
Cardiopulmonary Status: No changes noted from Pre-Op.
Respiration: Breathing spontaneously.
Pain Present: No.
Nausea: No.
Vomiting: No.

#### Procedure

##### Consents

Procedure Consent: I certify that I have discussed the nature of the procedure that has been recommended, risks, complications, expected benefits or effects of the procedure, and any alternatives to the treatment and their risks and benefits..

Sedation Consent: I discussed/answered all questions related to the anesth/sedation recommended, risks, complications, expected benefits/effects of the procedure and any alternatives & their risk/benefits, which are understood/accepted by the acknowledgement of the patient.

Discussed with: Discussed with patient.

##### Evidence Based Decision Tool

A formal shared decision-making encounter occurred between the patient and a physician or qualified non-physician practitioner using an evidence-based decision aid prior to the implantation.

##### Pre-Sedation Evaluation

Anesthesia/Sedation Plan: Conscious sedation.

ASA Score: II - A patient with mild systemic disease.

Mallampati Classification: II - soft palate, fauces, portion of uvula visible.

##### Patient Assessment

Assessment: Patient reassessed immediately prior to induction/administration of anesthesia.

**Subjective**

PCP - None

Dr. Hanna is a very pleasant 75 year old gentleman who presents with 5 days of chest pain. He describes a 6/10 chest pressure substernally located with radiation to his neck with associated SOB but no associated palpitations, diaphoresis or nausea. No alleviating or aggravating factors. The episode is on going. The episode started when he was at rest.

He had a 2D echo which revealed EF of 65-70% with mildly dilated aortic root with 4.2 cm and trace AL.

He had a lexiscan stress test which revealed no reversible defects.

On 12/2/21 at 1016 PM he was sitting down and watching TV and stood up and felt dizzy. He had a syncope episode. He hit his head and required to get stitches at the urgent care for SARH. He does NOT recall the events afterwards. He has never had syncope episode before. He checked his own blood pressure and was found to have SBP in the 170's. He has been taking his atenolol on a daily basis.

**Objective**

Constitutional: Alert and oriented. No apparent distress

Eyes: PERRLA, EOMI

Ears, nose, mouth and throat: No evidence of cyanosis of oral mucosa

Neck: Supple, no carotid bruits

<https://static.inpccofusion.com/ajpps/ehr/index.html#/PP/chart/patient/0650980d-c890-418a-baa2-94f615e7f854/encounter/bb2c857-18a2-4206-be...> 3/5

\* Auth (Verified) \*

12/13/2021 16:00 (FAX) P.007/008  
12/13/21 3:50 PM Encounter - Office Visit Date of service: 12/13/21 Patient: Adel Hanna DOB: 03/29/1945 PRN: HA889047

Cardiovascular: S1, S2 Reg. No murmurs  
Respiratory: Clear to auscultation bilaterally, no wheeze  
Gastrointestinal: Soft, nondistended, bowel sounds x 4  
Extremities: No LE pitting edema, DP x 2  
Neurological: CN II - XII intact, no focal lesions  
Skin: Normal, no rashes, no lesions noted  
Musculoskeletal: Normal range of motion, normal gait.

**CHEST XRAY SUMMARY OF FINDINGS 11/14/21:**  
Mild bibasilar linear opacities, probably atelectasis. Please clinically correlate to exclude pneumonia.

**2D ECHO SUMMARY OF FINDINGS 11/15/21:**  
1. Left ventricular ejection fraction estimated at 65-70%.  
2. Grade 1 diastolic dysfunction.  
3. Aortic root is mildly dilated with widest measurement of 4.2 cm.  
4. There is trace aortic insufficiency seen.  
5. Right ventricular systolic pressure estimated to be at 24 mmHg.

**LEXISCAN SUMMARY OF FINDINGS 11/15/21:**  
Left ventricular perfusion activity appears within normal limits. Left ventricular stress ejection fraction calculated at greater than 70% with left ventricular stress wall motion normal in appearance.

**Assessment**

Diagnoses attached to this encounter:  
Chest pain, unspecified [ICD-10: R07.9], [ICD-9: 786.50], [SNOMED: 29857009]  
Essential (primary) hypertension [ICD-10: I10], [ICD-9: 401.9], [SNOMED: 38341003]  
Shortness of breath [ICD-10: R06.02], [ICD-9: 786.05], [SNOMED: 267036007]  
Family history of ischemic cardiac disease [ICD-10: Z82.49], [ICD-9: V17.3]  
Syncope [ICD-10: R55], [ICD-9: 780.2], [SNOMED: 271594007]

**Plan**

Chest pain:  
-Chest pain with typical and atypical features  
-Cardiac risk factors of HTN, FH of CAD  
-2D echo revealed EF of 65-70% with mildly dilated aortic root with 4.2 cm and trace AI  
-Lexiscan stress test which revealed no reversible defects  
-Continues to have CP, SOB and had syncope episode  
-Recommend definitive evaluation with LHC to rule out CAD as etiology of his symptoms  
-Will obtain event monitor to rule out arrhythmia as etiology  
HTN  
-Suboptimal control on atenolol and amlodipine  
-Will increase amlodipine dose and add losartan to regimen  
SOB  
-Likely multifactorial etiology of SOB  
-Rule out cardiac contribution to SOB

Diagnostic Radiology

Report

Referring Name: Larry Chan

Clinical history: Preop for coronary angiogram.

Comparison: Chest x-ray November 14, 2021

Findings:

Heart size is normal. Tortuous thoracic aorta. Stable elevation of the right hemidiaphragm. Mild right basilar scarring/atelectasis. Lungs are otherwise clear. No pleural effusion or pneumothorax. Soft tissues and bones are unremarkable.

IMPRESSION:

No acute cardiopulmonary process.
