B. Kamkar MD  
12.03.00.00-18-[1.4] 25- 490I- 33 - 38 PD (Visual System)  
+3 Add-on for pain given

Per AMA Guides page 297 up to 15 VI is allowed for visual adjustments including glare sensitivity. In this case it is unclear whether the physician is including ocular pain as an individual eye adjustment or as a pain add-on. If it is included as an individual eye adjustment would not be ratable as it would exceed 15 VI.

L. Richman MD  
Report was not rated as chapter 13 will allow only the most severe cerebral impairment and Sleep/arousal was rated per Dr. Phan's findings. Additionally maximum of 3 WPI has been rated as an add on for the Eye pain.

P. Goodman  
No Impairment analysis was provided
